MT#3 All Is True Preview

All Is True connects to modern times because Shakespeare is still a popular writer - even though most people only watch his stuff when in high school. But I can see why teachers use it. I guess most other old plays from 500 years ago are way less ~~related~~ connected to modern times. I am told that Shakespeare ~~invented~~ invented modern ideas about love romance.

freedom, and how it feels to be human. Of course people beyond England also felt these things. But Shakespeare was first in England to put these ideas on paper. Lots of authors copied him. This made him even more popular. It also helped influence how people see themselves as human. It connects to everyone in that way - even people who aren't English but who want to know more about the English.

This matters to me because

I like the fight scenes, the gangs, the romance, and all of the sexual tension. I thought that entertainment being about "sex sells" was a new thing. Shakespeare was using sex, violence, action, and romance to sell his plays — and get rich — over 500 years ago. It's also weird to think that I have enough in ~~it~~ common with people in another country and another time to (at least) relate to a play they watched. It helps me understand these connections more
